# nuDoors Dura-Finish Advantage

Painted Wood

Joints expand & contract

Cracking & peeling of paint exposes wood, becomes vulnerable to moisture, bacteria, and more damage

Will require touch-ups & maintenance

nuDoors Dura-Finish

Seamless with no joints or cracks

Nonporous: provides superior water & bacteria resistance

Longevity & superior consistency in material color & finish

Easy to clean & sanitize material that won't chip or crack

# nuDoors Dura-Finish Advantage

## Scratch Test

Grams of weight needed before removal of material occurs.

## Impact Resistance

Drop height multiplied by a 4.5 lb. impact weight showing inch pounds needed for material integrity is compromised.

# Before & After

“Just finished my kitchen. It looks amazing. The workmanship on the doors were outstanding! this company was spot on. I can’t even begin to say enough about them. If you’re looking to give your kitchen a facelift definitely use them.” - Ester S.

# Environmental Impact

- nuDoors saves up to **80%** of cabinet material from ending up in landfills.
- nuDoors are made from recycled and recovered wood waste. Using **99%** of the tree!
